TK-301

Most Advanced Socket Fusion Tool Available

TK-301 has an ergonomic plastic handle and a removable slide-in stand, comes with 800 Watt, 120 VAC heating element, has microprocessor thermostat with precise temperature control, comes with **digital temperature display** of up to 580 F, comes in handy in tight spaces due to its forwardly triangular design, and three pairs of heater adapters can be connected all at one time if needed

The TK-301 is a superior tool at an extraordinary price comes with a two-year limited warranty.

TK-205

Dual Function SOCKET/SADDLE FUSION TOOL with Unique Design for Multiple Edgewise Operation (TK-205)

In addition to incorporating the existing features of our popular **TK-201** model tool, this innovative design allows for edgewise use of the iron in four locations on the narrow side, enabling the user to perform saddle fusion there, independent from socket fusion on the face.

TK-100

Included in Kit

- TK-101 Heater Tool, dual wattage (1600W and 800W), 120 VAC **Now available with 13ft. power cable at no additional cost.**
- Four pairs of bolt-on Heater Adapters, $\frac{3}{4}$ ", 1", 1-1/4" and 1-1/2" (IPS)
- Ratchet Pipe Cutter, Tape Measure, Hex Key, and Sturdy Carry Case

TK-200

Included in Kit

- TK-201 Heater Tool, 1350W, 120 VAC
- Four pairs of bolt-on Heater Adapters, $\frac{3}{4}$ ", 1", 1-1/4" and 1-1/2" (IPS)
- Ratchet Pipe Cutter, Tape Measure, Hex Key, Sturdy Carry Case, Insulated Heater Bag, and Stake Attachment

	<p>Socket/spigot pair for pipe and fitting socket fusion. Teflon coated for excellent anti-stick feature. Thick walls for sturdy performance. Supplied with screw that threads on, for convenient mounting to heater face.</p>
<p>HEATER ADAPTORS 3/4"- 2"</p>	
	<p>Ensures pipe roundness when used as a pipe holding device, positioned on the pipe for appropriate insertion length</p>
<p>COLDRING 3/4" - 2"</p>	<p>Solid construction with a vanadium locking-pliers configuration and 1022 carbon steel ring</p>
	<p>Dual-function tool for chamfering pipe edge as well as determining pipe insertion depth according to ASTM F 1056.</p>
<p>DEPTH/CHAMFER 3/4" - 2"</p>	<p>Body made out of dimensionally stable polyacetal with long- lasting steel cutter</p>
	<p>Woven from glass fiber reinforced Nylon material that can withstand flame- free temperatures of up to 750 F.</p>
<p>INSULATED HEATER BAG</p>	<p>Contains glass wool inner layer for flexibility.</p> <p>Also useful to keep contaminants off heater adapters</p> <p>Designed to hold various equipment sizes</p> <p>Dimensions: 12" x 8"</p>

 <p>KA-1 STAKE ATTACHMENT</p>	<p>Sturdy Stake Attachment for use with the TK-201, TK-203 or TK-205 Socket Fusion Tools</p> <p>12" long stake with two legs, with square cross section for more stability</p> <p>Chrome plated iron construction</p>
 <p>PLASTIC/RUBBER PIPE AND TUBING CUTTER</p>	<p>Heavy Duty Ratchet Cutter for all Plastic or Rubber tubing and pipe</p> <p>You can exert a much greater force with the ratcheting action while applying less pressure.</p> <p>Heat Treated Blades for clean cuts</p> <p>Locks in closed position for safety,</p> <p>NOT TO BE USED TO CUT METAL</p>
 <p>TEMP STICK</p>	<p>Temperature Indicator, with easy advancement/retraction design, melts at 500 F, with accuracy within 1%.</p>
